

Pipe Flange Aligner

- Items #**
38240
38240-T
38240-TL
- Model #38240-** This model features slotted pins with "friction fitting" knurled nuts for flanges to 30" - 150 lbs. Fits flanges with holes up to 1 1/2" diameter.
- Model #38240-T** - This model has pins which are threaded for flanges to 30" - 150 lbs. Fits flanges with holes up to 1 1/2" diameter.
- Model #38240-TL** - This is our largest model. Fits flanges with holes up to 2" in diameter.

All models of the Pipe Aligner will two-hole (make 2 holes of the flange horizontally level with the ground) and vertically level the flange in ONE easy step.

All models now come with 360° vials that just "snap" in and out for easy replacement.

The Pipe Flange Aligner saves valuable fit-up time, in most cases it cuts fit-up time in half

Two Hole Pins

Circle Wiz

Item #
CW-300

NEW Circle Wiz cutting attachment is a must for anyone who cuts small to medium holes in plate or pipe. It is especially handy for cutting out the holes for matching saddle cuts, weldolets and threadolets. Made of solid brass and steel, the Circle Wiz has all the same qualities as other flange wizard tools. The universal brass bushing will adapt to any size or make of cutting torch.

The Circle Wiz will cut holes from 3/4" inch in diameter to 16" inches in diameter. Simply slide the hardened center pin along the hex arm to attain the proper radius of hole desired. Place the sharpened point in your center mark and you are ready to cut.

Magnetic Circle Layout & Burning Guide

Item #
28439

As a **circle layout tool** with sliding soapstone holder and 360° scale will cut circles up to 30" in diameter. Bolt circles, hole locations, baffle plate placement, and circle sectioning for any number of reasons is a snap with **flange wizard's®** layout scale and sliding soapstone holder.

As a **circle burning guide** use this same tool to cut a round plate, simply place the sharpened pin of the layout tool into your center punch mark and let the magnet slide down to sit firmly on the work surface. The magnet is strong enough to support the weight of your torch, which frees your hands for more cutting control.

Standard Circle Burning Guide

Item #
10362

flange wizard's® economical Standard Circle Burning Guide will cut circles up to 35" in diameter. It can bevel circles up to 30" in diameter. The new universal bushing adjusts to all tip sizes. Perfectly balanced for a smooth cut every time.

Master Marker

Item #
MM-500

- Main body has it's own leveling system built-in and a strong magnetic base that works like a third hand.
- Marking arm holder telescopes and rotates 360° to allow the marking of larger pipes and fittings.
- Eliminates buying extra adapters.
- Great for marking angles on structural steel.

Standard Centering Head Tool

Item #
53076

Standard Centering Head Tool with its one piece "Y" shaped body is designed to establish and mark a centerline at any angle around the circumference (inside or outside) or a pipe or tank. Use it as a protractor level, or remove and use the hardened center punch for other marking jobs. The easy to replace 360° vial makes it a snap to repair. The 2-1/2° increments are stamped in the main body for lasting service. This tool is a must for the welder or fitter's toolbox.

Magnetic Blocks (3 to a set)

Item #
3-28

These new magnetic support blocks can be attached to any standard square to form your own burning guide. Also use them to hold your square for various jobs.

Attach to any straight edge up to 1/8" thick to form your own burning guide.

Note: One Block comes with 360° pop-in level vial.

U.S. Pat. No. 4391-433

Magnetic Torch Guide

For Straight or Bevel Cutting

Item #
12340
12340-24

New improved magnetic Torch Guide has adjustable holding blocks and cutting rail extensions available that allow you to add all the length you need for those special cutting jobs. The cutting guide is shaped to give your conventional or plasma torch tip support as close as possible to the area being cut.

The **basic model 12340** is 24" in length with two adjustable magnetic holding blocks.

24" Extension. Each extension comes complete with 5" long magnetic connector block.

Pocket Pro Level

Item #
PP-200

It's extra strong magnet will hold it firmly to any steel surface. The two(2) stationary vials are placed at 90° angles of each other and can be read from any surface of the level. If vials are broken or damaged, they can be replaced by removing the old vial and sliding in a new one. Only 9" long and 1 1/2" wide for easy handling and storage. Weighs 10 ounces.

Radius Marker

Item #
72805

The Wizard Radius Marker is a precision tool made of rust proof aluminum. Precisely aligned arms guarantee accuracy and rigidity for years of service. Holder accommodates flat or round soapstone and pencils. Folds to pocket size.

25" span. - 50" circle

Accessory Degree Level

Item #
L-2

The pocket size, combination degree level makes it easy to establish angles and mark for butt-ins, set tanks, layout keyways and measure decline or slope. This handy pocket level is 2 3/8" long and 1 1/2" wide. This compact tool is permanently stamped in 2 1/2 degree increments and numbered every 10°.

Wizard Wrap

Item #

Small 2" x 30"
WW-16

Medium 3" x 60"
WW-17

Large 5" x 120"
WW-17a

ExLarge 7" x 180"

WW-19

Wizard Wrap, made from a non-asbestos, heat resistant material, has a nice thick edge for easier more accurate marking and to help your soapstone from slipping.

Exclusive features:

- 36" tape measure printed on the medium & large Wizard Wraps. 28" tape measure on the small Wizard Wrap. This limits the need for an extra tape measure, and makes mark-up easier.
- "Circumference & Quartering" scale printed on every small, medium and large Wizard Wrap. This limits the need for calculations because the exact circumference, 1/4, 1/2 and 3/4 of the circumference, plus the actual pipe diameter for 2" through 30" pipe is printed on the outside of the Wizard Wrap.
- Packaged in a durable, reusable container that will hold up in your tool box.

Wizard Wrap is a high density product for heavy duty service at temperatures up to 360° F. It has outstanding resistance to oil, gasoline, greases, kerosene, water, sea water and is made from a non-asbestos material. Note: Special order lengths and widths available.
